

IREROBOT

Tender for external service agreement for: project management, dissemination and commercialization

TENDER DESCRIPTION

We are looking to collaborate with an organization (the tenderer) within the context of a recently funded two-year project that aims to further develop, and ultimately commercialize a unique interface for communication that uses the sense of touch. The project begins in the summer of 2021. The successful tenderer will work closely with the engineering team of Irerobot ltd and report to the project coordinator. The tenderer will provide external services to Irerobot ltd based on a fixed price, for undertaking the coordination and/or delivery of each of the following items:

1. Project Management
2. Dissemination and Communication Activities
3. Commercialization
4. Industrialization (licensing agreements, B2B agreements, etc.).

Irerobot ltd may decide to grant each item or parts of the above items to different organizations. **For a full tender package that includes a list of deliverables, specifications, conditions etc., send an email expressing your interest at: evagoras.xydas@irerobot.com.**

Tenderer status:

- The tenderer is based in Cyprus or has offices based in Cyprus
- Has a proven portfolio of previous activities that demonstrate successful collaboration with technology (hardware) start-ups, preferably within the Cypriot ecosystem but with international reach
- The tenderer must have proven access to, or collaboration with, potential B2B partners and investors in the international scene and proven access or established contact to financial, legal and IP offices
- The tenderer must be able to demonstrate previous work related to the implementation and management of funded projects and in supporting start-ups and/or SME's with management and dissemination/communication activities. Portfolio of projects funded by the Research and Innovation Foundation (RIF) of Cyprus is a requirement
- Tenderer's personnel must include individuals with academic degrees, experience and expertise that are related to the tender items.

About Irerobot ltd

We focus on the development of state-of-the-art solutions in the areas of robotics and human-machine interaction. Throughout our projects we remain committed to focus on meaning rather than profit and create technology that makes the world a better place.

The completed tender documents must be submitted no later than **the 25th July 2021** to the following email address: evagoras.xydas@irerobot.com. For clarifications you can call: +357-99644287 (from 9:00-18:00 GMT+2).
